

Welcome To The Family

ABOUT YES!

Our Unique Program

This is NOT your typical kid class. Using our specialized approach, your students will build skills in fitness, creative movement, hip hop, dance, and performance. No matter what YES! activity you choose, our classes help build the foundational motor skills and self confidence they need for success!

Our Class Approach

Our classes are for boys and girls. Children learn basic dance steps in a fun and exciting class. Our program helps students develop motor skills, coordination, flexibility and confidence with a new themed movement experience every month. We use crazy-fun equipment, props, music, and sound effects! We take them to the jungle, outer space, superhero world, under the sea, and more!

Our Convenience

We teach live online and give you unlimited access to our vault, which means whether its you or a caregiver your child will have active fun options throughout the day at home. We know how important high-quality enrichment activities are to your family.

THE FUN STARTS NOW
